Jan 15, 2020 Version 1.0.20 > No more creepy crawlers here! We've squashed all the bugs.> Enjoy a smoother than ever game performance!> Be part of the TabTale family & stay in the know: facebook.com/tabtale This game is great, but there are three things. First, you created this game for people to play and enjoy, so why bother them with ads? To make people happy, remove the ads in the next update or only put funny or cool ads, but only if you can't remove ads altogether. Second, when I chose taffy to be a vampire girl, every time I picked up a power up, she turned back into Tom until the power up wore off. And one more thing. Could you add more original characters that have something special that the other students don't have. For example, the Mack the dog character keeps falling asleep in class and another kid gets mad faster and every time you cheat on this one kid, he travels across the classroom. Those are good ideas that you have and keep up the good work! this is a very good game now its just sad, you guys don't really make games like this anymore. now its just this new mobile game stuff. and i don't like all these new mobile games, please go back to making stuff like this When I'm cheating my character (Tammy/or Tom) just runs back to their seat even though I'm not done cheating. It's so darn annoying, especially when I'm playing a hard rush level. Also lessen the ads, they're just annoying and no one (including me) cares for what they advertise. Most ads just feature games that look so cheap, stupid, and uninteresting. I literally got two gross game ads with a foot having either a bloody split toenail or a bump. Just ew, what type of advertising is that?! And plus, when I'm cheating the teachers look back at the class so quickly, like they don't even give me time to cheat. Please fix these problems and I'll love the game even more than I already do. The developer, Crazy Labs, has not provided details about its privacy practices and handling of data to Apple.
